A NUT FOR WHISKEY DRINKERS—The following extract, which we take from a communication in the Cynthiana News, is at once graphic and startling:

"The crops of Harrison county, this year, unless cut short, will be very great. We will have to haul to the depots on the railroad which runs through the middle of the county, 300,000 bushels of wheat, 100,000 bushels of yeard 30,000 bushels of barley. Thousands upon thousands of barrels of corn must be hauled into the Devil's Pass. corn must be hauled into the Devil's Pass, there to make good old Bourbon, notwithstanding it is made in Harrison, and if you will but drink this good old Rourbon, not-withstanding it is made in Harrison, by the Harrisonite, with their improvements of logwood, arsenic, cockroaches and mobbles is less time. or logwood, arseine, coekronenes and mo-lusses, it will eat up your bowels in less time than Solomon built the temple."

THURSDAY MORN'G, JULY 30, 1857-ON THE OUTSIDE OF THIS ISSUE.—First Page—A Nut for Whishey Drinkers.

17 The Boston Courier censures the poet Whittier for writing so often upon such themes as Freedom, and Human Rights .-It thinks he should restrain his mose to more poetical and less political topics, like flowers, rainbows, sturs, and other sentimental objects. Thereby he would avoid all conflict with the controversies and agitations of the times, and render himself more popular with that genteel or upper ten hunkerdom of which the Courier is the organ.

What a pity our poets and preachers will keep meddling with politics ! If the former would sing nothing but love-songs, and the latter confine themselves to the doctrine of the Trinity or Justification by faith, omitting all mention of works, or of the Galden Rule, what a quiet time the Courier and all venerable and nervous old gentlemen might

What a mistake that the Marseillaise lind not been a waltz, instead of a march ! How many nights sleep would have remained undisturbed! How many heads would have stayed longer on their shoulders,! Oh! Mr. Whittier, please don't!

NATIONAL HORSE SHOW AT SPRING-FIELD.—The Agricultural Society of Hampden County have purchased a splendid meadow of near one hundred acres, on the bank of the river just above the centre of Springfield, and are making it into a grand agricultural park, with a course one mile in length for the display of horses. The investments in the ground and tences and course will be about \$20,000. The society and citizens of Springfield have united to celebrate the possession of this magnificent park with a great agricultural festival and national horse show. It is proposed to give a whole week to the celebration, to disburse about 33000 in premiums upon horses alone and to gather there for speeches, some of the most distinguished men in the country. Henry Ward Beecher is already engaged to deliver a dedicatory address. The week which begins with September 28th and closes October 3d, is assigned for the festival and exhibition.

THE CAREER OF A YOUNG HORSE THEF.—A number of weeks ago a young lad stole, from the town of Bristol, R. I., a horse and chaise, the property of an inhabitant of that town, with which, after various adventures, he reached the village of Newton Corner, in a pennyless state. Putting up the team at the stables of the Nonantum Jianse, he offered to leave a portion of the team behind in payment of his bill; but as his honesty was suspected by Mr. Parker, the keeper of the stable, the team was rethe young man pursued his way on foot, but was afterwards arrested on a charge of stealing money, and sent three months to the Horse of Correction. After this he made a clean breast of it, and told the owner where he could find his team, which was yesterday accordingly recovered.— Bosion Trav. 28th.

A singular accident took place in Baltimore on Thursday, at a house occupied by a colored man named Rees. It appears, during the Mexican war, he had been engaged on shipboard, and brought home as a trophy a small sized bomb shell. After taking out all the powder and balls, as he thought, he threw the bomb into his yard. There it remained until Thursday morning, when his wife Milly Rees, having occasion to cook dinner in the yard, and, finding the pot did not set level, she took up the shell and placed it on the fire beneath the pot, at any advantage of the shell and placed. and placed it on the fire beneath the pot, not appreheading any danger. At the time the dinner was well cooked, she approached and commenced taking out some vegetables. The shell having by this time become well heated, exploded, a piece of it striking her hand, and lacerating it dreadfully. The pot and its contents were blown up the chimney.

A WOMAN WITH TWO HUSBANDS .-- A few days ago, a man returned to Lowell after a four years' absence in Australia, to find his wife married again, and her second marriage honored with an infant. The Lowell Citizen says that the wife justifies ner second marriage on the ground that she supposed her first husband to be dead; but, as he turns up again, she is inclined to go hack to his arms. The second husband, unable to retain the woman, has taken possession of the babe, and intends to keep it The other parties have commenced or are about to commence legal proceedings for its recovery,—Greenfield Gazette.

Grouns were heard issuing from the attie of a building in Hartford, Conn., the other day, when the woman occupying the lower floor rushed up and cut a rope by which a would-be suicide hung suspended.—

After recovering, he showed fight again, while the woman was kneading dough, when she attacked and beat him finely with a rolling pin.

LOCAL NEWS.

The Dramatic and Poetic entertainment given at the Fillmore House, on Saturday evening last, is to be twice rapeated in the course of a few days. After attending the former reading of this course we are prepared to speak in high terms of the probable character of any subsequent exhibition on the part of Mr. Brown and Miss Bridges. The Hall on Saturday was but thinly attended if we take into account the excellence of the performance. We hope on the occasions to follow, to witness a more numerous audience.

An Academy of rising reputation is established in this city, bearing the Rhode Island name of the "Berkley Institute." -We are happy to say that we believe this school merits its good name. Eminent prosperity has attained its different principals up to the present day, when Mr. W. C. Leverett occupies that chair. The terms of the "Institute" are liberal, and the instruction provided in the several branches of English, French and classical aquirements is competent to a high degree.

The fair of the Unitarian Society has been a most agreeable and successful event. We were much surprised at witnessing the elegance and variety of the goods accumulated on the numerous stands. Many of the articles offered for sale had an undefinable value of their own, consequent upon being the work of the ladies of the Association. The Bellevue Band in the afternoon and the Germanian in the evening discoursed delightful music.

The celebrated yacht Maria, which has been laying on the stocks at Hoboken, during the past three months, for repairs, was launched on Thursday morning, in fine style. About one hundred persons including Mr. Edwin A. Stevens and family, were on board of her, and a large collection of persons on shore were spectators. The Maria has been thoroughly scraped and painted upon the outside. Another week will be required to finish her interior decorations. The statement made sometime since, that her rig was to be changed from sloop to schooner, was incorrect.

Our neighbor, Mr. B. M. Scabury, of No. 150 Thames street, has sent us quite a large box of Guava Jelly, as a specimen of a considerable quantity of this delicious preserve, which he has now on hand, having just received it from Havana. If all the boxes are as good as the one of which we have just been partaking, we can cheerfully recommend their quality, and do not doubt but that Mr. S. will make it an object for those who are in want to give him a call.

The Fort on Tuesday evening was thronged with visitors. As every one supposed, the musical attractions added to the natural inducement afforded by the place itself, have rendered a weekly visit to Fort Adams once more a prominent feature in Newport fashionable life. The Germanians performed as usual-well.

Some of the mills in Providence and vicinity have commenced working on the "short time" system, and others will probably follow. It is stated that the present relation between the price of the raw material and the manufactured article necessitates this course.

Mad'm. Anne de la Grange arrived vesterday at the Ocean House; also Mad'm. Emma Gillingham Bostwick, and Mad'lle. Szpatzeek. The Concert of the last named Artist will be given on Wednesday Evening, Aug. 5th, at the Fillmore House.

Holloway's Pills.-The case of Mr. W. Dimon, of Service Creek, Md. remarkable evidence, of the efficacy of these pills in billious disorders. Mr. Dimon re-sides at the mouth of the creek, near the Little Falls of the Potomac, in the midst of a district so unhealthy, that in the months of August, September, and October, half the population are sick of billious remittant In October last, Mr. I). was pro fever. nounced by the physician who attended his family, to be at "death's door." Caloinel and quinine, the "hobbies" of the faculty in that region, had been administered in vain. as a dernier resort, at the instance of a friend, he determined to try Holloway's Pills. In three days the cold paroxysms cosed, in a week he was about the house, and in one month able to attend to business.

NEEUS AND WANTS.—There is a great difference between needs and wants. "Man needs but little here below," but wants a great many things which he does not pos-sess. Few persons need a fortune, but almost everybody wants one. A majority of mortals, however, need actually more moncy than they possess or can quickly acquire in relieve them from anxiety and trouble. Such persons frequently have changed their mhappy state by investing in secure lotteries, like those of SWAN & Co., Atlanta, Georgia. They are drawn every Saturday throughout the year, and annually distribute an immense amount of money throughout he country the king. the country, thus hencitting the community, it is no foolish thing to try one's luck and supply one's needs by investing in their lot-cires, which are under the sanction and supervision of the State of Georgia. By endosing ten dollars for a whole ticket, or a proportionate sum for half or quarter of a icket, a man's wants may be ended and his cooks satisfied he country thus henclitting the community eeds satisfied.

The New York Yacht Club, having accepted the gift, with the conditions above expressed, consider this a fitting occasion to present the subject to the Yucht Clubs of all nations, and involved from them a spirited contest for the championship, and trust that it may be the source of continued iriendly strife between the institutions of this description through the world, and therefore request that this communication may be laid before your members, at their earliest meeting, and earnestly invite a friendly competition for the possession of the prize, tendering to any gentlemen who may favor us with a visit, and who may enter into the contest, a liberal, hearty welcome, and the strictest fair play.

Respectfully, your obedient servant,

N. BLOODGOOD,

Secretary New York Yacht Club. A CHARGE OF PLAGIARISM REPELLED. A CHARGE OF PLAGIARISM REPELLED,—
An article relating to the authorship of the poem "nothing to wear," having appeared in the Counier and Enquirer, giving circulation to a report "prevalent in private circles," and based "upon authority in every respect reliable," that the authorship is claimed by a young lady, and that her parents corroborate the claim, and account the its multipartim. (by the foot that, the parents corrobate the claim, and account for its publication "by the fact that she lost the manuscript, and was surprised to see in print with additions and alterations," William Allen Butler, Esq., has addressed a letter to the Courier in which he says:—

Thave not intherto avowed the authorsmp of this poem, but when an illusion to m name is coupled with a charge of stealing the literary productions of a girl "not out of her teens," and permitting their publica-tion as my own, and when currency is given to such a report in the columns of a respectato such a report in the columns of a respecta-ble journal, I feel called upon to state pub-licly and without delay that it is entirely untrue. The poem in question was written by me during intervals of leisure running by he dating inter as a breaster may he its merit or want of ment as a literary work, it is exclusively my own; no line or thought in it having been suggested to me by, or derived by me from any other person or source, and any assertion to the con-mary is entirely false.

It is said by the Post that the young lady

referred to by the Courier, is a daughter of the Rev. Mr. Peck, an Episcopal clergyman of this city, and the lines upon which she competes with Mr. Butler for the bays, are the first twelve and the last thirty-one.— Some further explanation of the claim set up for the young lady will be expected.

A MAN MISTAKEN FOR A WOMAN-ANTE MORTEM EXAMINATION.—Sometime ago, it will be remembered, a singular case came up in Court, in which a young man named Lipscomb sucd another young man named Thos. Linton for breach of promise.

Linton, it seems, was of such remarkably feminine appearance that his friends easily persuaded Lipscomb that he was a female in disguise, and so enamored did he become of Linton as to ask and receive of Linton as to ask and receive a promise of marriage, which of course, the latter was unable to fulfil. But on attempting to explain why be could not "come to time" the fond "lover" wouldn't believe a word of it, and full in the believe that his enumerate was a woman, and nothing shorter he sued for breach of promise. The case created no little excitement in Richmond. The case created no

little excitement in Richmond.

An examination by five experienced physicians was ordered by the court, so that there should be no possibility of mistake, and they reported that Linton was undoubtedly a man; so Lipscomb lost both his ladye love and his lawsuit.

Linton has recently arrived in this city,

and such was his womanish appearance that suspicion was created as to his sex, and the suspicion was created as to his sex, and the Guards were about to arrest him, and would have done so but for the interference of a person who knew the young man. Last night, Linton again got into trouble, through falling into the hauds of a party of young men who believed him to be sailing and takes colors, and were about to have

of twenty years, communes to secure Patents in the United States; also in Great

es made into American or Foreign works, v. determine the validity or utility of Patens or Inventious,—and legal ur ather advice rendered in all matters touching the same. Copies of the claims of any Patent furnished by remitting One Dollar Assignments recorded at Washington.

This Aguncy is not only the largest in New England, but through its inventors have advantages for seening patents, or ascertaining the patentability of inventions, unsurpased by if not immeasurably superior to any which can be offered them elsewhere. The testimonials below give proof that nome is MORE SUCCESSF UL AT THE PATENT OFFICE than the subscriber; and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABULITY, he would add that he has abundant reason to believe, and can prove, that at no other office of the kind are the charges for professional services so moderate. The immense practice of the subscriber during twenty years past has enabled him to accountate a vast collection of specifications and official decisions relative to patents. These estides his extensive library of legal and nephenanical works, and full accounts of patent granted in the United States and Europe, render him able, beyond question, to offer superor facilities for obtaining patents.

All necessity of a journey to Washington, to procure a patent, and the usual great delay there, are here saved inventors.

TESTIMONIALS.

During the time I occupied the office of Commissioner of Patents, R. H. Eddy, Esq., of Boston did business at the Patent Office, as Solicitor of procuring Patents. There were few, if any persons acting in that capacity, who had so much business before the Patent Office; and there were none who conducted is with more skill, fidelity and success. I regard Mr. Eddy as one of the best infurmed and most skillful Patent Solicitors in the United States, and have no heaitation in assuring inventors that they cannot candop aperson none competent and trustworthy, and more capable of pating their applications in a form to searce for them an early and favorable consideration at the the Patent Office.
